ANIMAL HOSPITAL

ROBERT T. FURNESS D.V.M.

June 15, 2011

To Whom It May Concern:

We were already with Alliance Imaging when we decided to go digital. We have had our system for about 2 years and have not had any problems.

Alliance made the transition go very smoothly, and John Prifti was very patient with training two not very computer savvy people. The system is easy to navigate and takes beautiful images.

We have had to call John a couple of times due to "human errors" on our part. John seems to almost always be available, and if not, gets back to us quickly. He walked us through our errors and we are very grateful.

We would highly recommend John Prifti and Alliance Imaging to anyone considering going digital.

Please feel free to call and ask any questions.

Sincerely,

Robert T. Furness, DVM
